May 2021

Update to NSC Pandemic Lodge Use

Effective May 5, 2021

ALL LODGE USE REMAINS BY RESERVATION ONLY
Summer nightly fees are in effect. * \$10/person/night *****

Quarantining is out. Testing is in. Vaccination has Benefits.

But, before we get into the details, because travel increases your chance of getting and spreading COVID-19, the CDC recommends delaying travel until you are fully vaccinated.

Unvaccinated Members (including children)

- Must have a COVID-19 test within three days before arriving in Vermont / at the lodge.
- The test must be for a current infection (e.g., a PCR test), except it cannot be a rapid antigen test—also known as a rapid test.
- Before entering the lodge, you must provide the club with proof of your negative test result. This will usually be done via e-mail.
- Carry proof of your negative test result with you to VT.
- If you test positive, do not go to Vermont; provide the club with proof of your positive COVID-19 test result and your nightly fee(s) will be refunded in full.
- Quarantining does not exempt you from the testing requirement. You may choose to quarantine, but are still required to get a negative test before going to Vermont
- Generally, only one family/pod with a member(s) that is/are unvaccinated may use the lodge at a given time. However, exceptions may be made to allow up to two families/pods to use the house at the same time.

-
- Families/Pods with an unvaccinated member(s) will be assigned first floor rooms and will use only the first floor bathroom.
 - Unless otherwise specified in a written reservation confirmation, the second floor is off limits to unvaccinated individuals.

Members who have recovered from COVID-19 within the last 90 days do *not* need to test unless they develop new symptoms.

- To use the lodge under this designation, proof of both definitive COVID-19 diagnosis and subsequent full recovery must be provided.
- With the exception of the testing requirement, members in this category will follow the same rules as unvaccinated members

Fully Vaccinated Members (14 days past your final dose)

- “Vaccinated” means at least 14 days *after completion* of a proper two dose Moderna COVID-19 or Pfizer COVID-19 vaccine regimen or 14 days after vaccination with the single dose Johnson & Johnson COVID-19 vaccine.
- Must provide proof of vaccination (to make a “vaccinated-member reservation.”)
- Do *not* need to get tested.
- If only vaccinated members are currently using the lodge and only if all those vaccinated members present agree, masks need not be worn.
- Only vaccinated members may use/go upstairs to the second floor.
- Traditional NSC men’s and women’s bedrooms and bath rooms will be assigned/used.
- A family room may be requested and on a space available basis *may* be assigned—summer only!

Guests

- No unvaccinated guests.
- Fully vaccinated guests may be possible.
- Must provide definitive proof of vaccination against COVID-19.
- Must provide a witnessed signed NSC Waiver / Release of Liability.
- Approved on a case-by-case basis.

PLEASE NOTE: Federal, State, and local policies and recommendations continue to evolve. In regard to using the lodge, whenever there is a conflicting or different requirement, the more stringent requirement shall apply.
